Description

ASAM Criteria-(B) - Integrated treatment planning and documentation required to support current level of care and transition to other levels of care.

Intermediate course – Step 2 in the ASAM Series

This interactive, skills-based training will begin with a brief overview of the ASAM criteria and a cross-walk between the levels of care articulated in the ASAM criteria and the levels of care defined by the DMC-ODS Waiver. Following this brief review, the presenter will focus the remaining portion of the training on a detailed review of the four progress note formats approved for use in clinical files by SAPC.

Learning Objectives

1. Demonstrate ability to apply ASAM risk ratings to information gathered through multidimensional assessment
2. Demonstrate an ability to create an individualized treatment plan based upon the ASAM criteria and risk across the six dimensions of multidimensional patient assessment.
3. Use progress notes to demonstrate movement toward attainment of treatment plan goals.
