Relationship to child

Describe very specifically and concretely the target behavior(s) that: 1) put current living situation at risk and/or 2) put transition to a lower level placement at risk, and/or 3) behaviors which put the child/youth at risk for possible psychiatric hospitalization.

Does your child/youth or child's caregiver have specific requests or needs with regard to TBS Coach/Specialist's language, culture, age, or gender?

TBS is never a primary therapeutic intervention. TBS is always used in conjunction with other specialty mental health services such as individual therapy, family therapy, and/or Wraparound Services.

Please provide the names of staff, agency name and their phone numbers who may be involved in the child/youth's treatment. This will allow the TBS Specialist/Coach to work collaboratively with members of the treatment team.

NAME / MRN

Clinical Need Criteria: If the clinical judgment of the mental health provider indicates that it is highly likely that without the additional short-term support of TBS that:

(must check at least one)

- The child/youth will need to be placed out-of-home, or into a higher level of residential care, including acute care because of the child/youth's behaviors or symptoms which jeopardize continued placement in the current facility.
- The child/youth will need TBS additional support to transition to a home or foster home or a lower level of residential placement.
